2017 January Test – ELL-A

Name: Sunny

Sunny's homework was to build an airplane to decorate the inside of the school. She listened carefully to several important ideas from her father and corrected her problems. Sunny's family helpfully prepared some metal for her, and believed that Sunny would do a good job. Sunny worked diligently on this project with her friends, Bob and Tim, for six days. When Sunny finally finished, the airplane was wonderful and very big. Sunny was very happy, and took a picture of the airplane with her friends and family after she put it on her teacher's desk.
